
Capsat® Messenger Vehicle Kit

Thrane & Thrane is proud to announce the upcoming introduction of the revolutionary Vehicle Kit for the TT-3080A Capsat Messenger.

The TT-3080A Capsat Messenger is the worlds most popular Global Area Network terminal offering 64 kbps ISDN connectivity at any given location via the Inmarsat Satellite System.

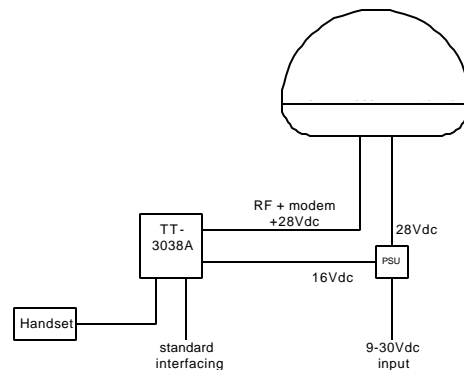

With the new revolutionary Vehicle Kit for the Capsat Messenger, Thrane & Thrane extends your connectivity to vehicle purposes.

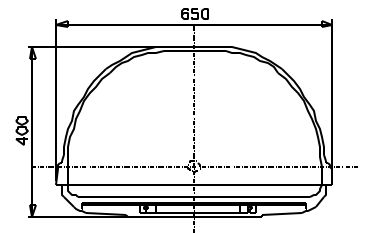

From the convenience and safety of your vehicle – even while the vehicle is moving you are now able use 64 kbps to:

- Broadcast high quality audio
- Transfer pictures
- Surf the Internet
- Send and receive e-mails
- Connect to your corporate network

The Capsat Messenger Vehicle Kit consist of a Mounting Cradle for the TT-3080A Capsat Messenger Transceiver unit, a universal DC/DC Power Supply, and a fully automatic Tracking Antenna.

The Capsat Messenger Vehicle Kit is fully compatible with the TT-3080A Capsat Messenger, allowing you to use the same Transceiver unit including all the same features for both your portable and vehicular needs.
